## OUR IMPACT SO FAR

\*UPDATED DECEMBER 23, 2021

**1,855**  
IMMUNIZATION  
PROFESSIONALS

**133**  
COUNTRIES

**TOP FIVE COUNTRIES**  
(BESIDES IMPLEMENTING PARTNERS):

**5**  
NIGERIA  
KENYA  
INDIA  
GHANA  
PAKISTAN

“

I feel valued by being able to connect with people with different kinds of experiences and expertise who also accommodate people in other fields, and gives them a chance to communicate and are always willing to respond to my questions.

”

—Boost Community Member,  
Cameroon

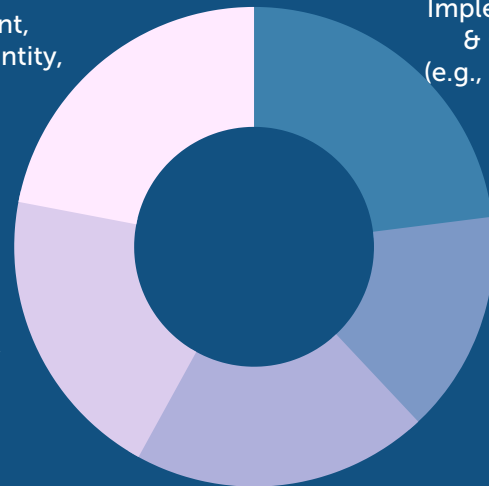

## WORK SECTOR BREAKDOWN

Other (e.g., Consultant, Academia, Other Gov. Entity, Private Sector)

**22%**

Multilateral / Bilateral (e.g., WHO, USAID, CDC, UNICEF, Gavi)

**20%**

Implementing Country & Global Partners (e.g., CHAI, JSI, SCIDaR)

**23%**

Ministry of Health – National

**15%**

Ministry of Health – Sub-national (e.g., Province, State, District, Facility)

**20%**

**3,755**  
immunization  
professionals accessed  
learning opportunities

**92%**

Boost Community members (who responded to the surveys) agreed or strongly agreed that the learning opportunities were relevant to their work

# PARTNERSHIPS

Boost currently seeks partnership opportunities with a lens towards content development and alignment on strategic priorities.

## We amplify critical voices through:

Live events - webinars and interactive virtual workshops that provide partners with opportunities to share updated

Comprehensive train-the-trainer curriculum, which enables Boost members to deliver Adaptive Leadership and Community Organizing trainings to the Boost Community

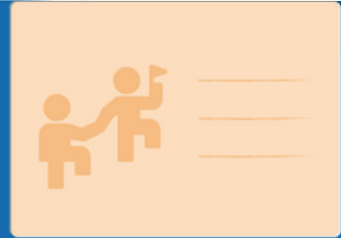

Virtual events and trainings facilitated by Boost members

Convening Boost members to share insights and provide feedback to the Boost team

Elevating in-depth stories and moments of innovation from our community of immunization professionals

90

## We help our members lead through uncertain times and build back better

With the ongoing global introduction of COVID-19 vaccines, immunization professionals face enormous challenges related to:

Vaccine delivery, including identification and prioritization of target populations

Rapid, sufficient uptake of vaccination

Effective supply chain management

### OUR RESPONSE

## The COVID-19 Listening and Learning Series & Podcast

A platform for immunization professionals as well as others involved in COVID-19 vaccine delivery to share their perspectives on vaccine introduction with particular emphasis on transferable lessons learned.
